

DON'T BE FOOLED. ORGANIC OCEAN® IS DIFFERENT.

Organic Ocean® is a unique West Coast enterprise. In an industry where problems of supply and distribution are endemic, our integrated operations offer efficiencies and solutions that are beyond the range of other vendors. We take the fish from the sea and expedite it right into your kitchen. Our supply chain is fast and direct. We are in control at every point along the way. A recent study has indicated that up to one third of the fish currently on the North American market are mislabeled.

This will not happen when you deal with Organic Ocean®. Ours is a hands-on operation. We know when, where, and how our products are harvested. We

are also the only supplier in the world to adopt DNA species analysis to ensure that you are getting the exact product that you have ordered and paid for. From Organic Ocean® you get the highest quality product, and the truth.

We offer an array of seafood with some types of fish and shellfish that only we can supply. Our "catch" includes (but is not limited to) the following:

- Wild Pacific Salmon
- Wild Haidacore™ Albacore Tuna
- Wild Sablefish
- Wild Pacific Halibut
- Wild Pacific Ling
- Wild Rockfish
- B.C. Spot Prawns
- Pacific Sidestripe (or Giant) Shrimp
- Pacific Humpback (or King) Shrimp
- Pacific Pink Shrimp
- Pacific Dungeness Crab
- Pacific Humboldt Squid
- Giant Pacific Octopus
- Pacific Oysters
- Pacific Mussels
- Pacific Scallops

Funding for this brochure has been provided by Agriculture and Agri-Food Canada and the BC Ministry of Agriculture through the BC Agrifoods Export Program under Growing Forward 2, a federal-provincial-territorial initiative. The program is delivered by the Investment Agriculture Foundation of BC.

THEY SAID THAT HARVESTING WILD SEAFOOD AND NATURALLY CULTURING SHELLFISH IN SMALL BATCHES WAS INEFFICIENT. THAT'S WHY THEY DON'T SUPPLY THE FINEST SEAFOOD.

ORGANIC OCEAN® SEAFOOD - WILD HARVESTED, SUSTAINABLY CULTURED AND HAND-SELECTED. THE VERY BEST OF WHAT NATURE INTENDED US TO CONSUME.
